ABOUT ISTE

ISTE is a national, professional organisation with membership open to all persons and institutions connected with or interested in technical education. Its major objective is to assist and contribute to the production and development of professional engineers and technicians of the best quality as needed by the Industry and other organisations. The role and importance of the ISTE have been well recognized by the Central and State Governments and the ISTE is now being represented in almost all boards and technical committees of the Central and State Governments and other allied boards. Also the Ministry of Human Resource Development (MHRD) and the All India Council for Technical Education (AICTE) have been involving the ISTE in most of its programmes.

In planning its role effectively, ISTE has to develop good linkages with all technical institutions, the industry and various professional bodies connected with engineering and technology. With this mind, ISTE has introduced "Institutional Membership" for institutions, industry, professional bodies, departments of Government and Research organisations. By becoming an institutional member, the institution can benefit from various services offered by the ISTE and also take an active part in the various process of moulding professional engineers and technicians.

The following are some of the major activities of the ISTE.

1. Updating of curriculum and education processes to suit changing needs of technology.
2. Conducting over 200 summer / Winter school programmes for engineering teacher and for practising engineers.
3. Preparation of teacher manuals, laboratory manuals and other instructional resource materials.
4. Special short-term course organised by industry in their premises for teachers in engineering.
5. Production of course modules for Continuing - Education of Working Professionals.
6. Subject updating courses for practising engineers in specific areas of importance.
7. Publication of bimonthly "ISTE Newsletter".
8. Publication of a quarterly "Indian Journal of Technical Education".
9. Publication of nearly 15-20 monographs and reports.
10. Organising seminars/workshops/conferences on topics of relevance to technical education.

The strength and effectiveness of an organisation lies in its association and interaction with other sister organisations.

WE THEREFORE, REQUEST ALL TECHNICAL INSTITUTIONS, INDUSTRY AND OTHER ORGANISATIONS TO BECOME INSTITUTIONAL MEMBER OF THE ISTE AND THEREBY HELP TO IMPROVE THE QUALITY AND RELEVANCE OF TECHNICAL EDUCATION. THE INSTITUTIONAL MEMBERSHIP IS VALID FOR WHOLE LIFE.
